EXPLANATION.

From 1783 to 1854 inclusive the students are arranged according to the year of their admission to the Academy. The number after the name indicates the age at the time of admission. Beginning with 1855 the arrangement is by classes, the numbers after the name indicating the year of admission and the age in that year. Where no degree is given between the name of the college and the date, A.B. is understood. If A.B. is not received, the degree received is enclosed in parentheses. In some instances, where the occupation is in one place and the residence in another, both places are given, the former in parentheses. An asterisk against a name signifies that the man is dead; and the date of death, when known, is given at the end.

Abbreviations of Colleges and Scientific Schools.

Amh.	Amherst College.
